

ONE CARIBBEAN ESTATES

Walkers Bay - Secret Spot

St. Joseph, Barbados

US\$ 650,000

Description

This is truly a special spot located in one of the most protected and unspoilt locations on the island's east coast. This parcel consists of approximately 5.1 acres of land with a natural stream which meanders through part of the lot. While this lot does not run to the water's edge, there is no development that would be allowed between the lot and the view or access to the Atlantic Ocean.

Currently zoned as an agricultural lot, which allows development for only one dwelling, this is a hidden treasure for a very discerning buyer.
